NOTE: All UTA Transfers includes more than just Texas College Transfers. Additionally, All UTA Students consists of more than Transfer and Native Students

NOTE: Beginning with the Fall 2003 report, only students who entered UTA as transfer students are included in the counts for specific community colleges, Texas Community College Transfers and Four-Year College Transfers. In previous years' reports, these categories included only students who had the appropriate college code in "Last College Attended" regardless of their original admission status to UTA (native or transfer)

Note: For Counts equal to 1 Mean GPA was not reported
