

FACULTY ROLE IN INSTITUTIONAL GOVERNANCE The faculty's role in institutional governance is a role of advisement. Through standing committees, the faculty association, ad hoc committees, and individual input to the administration and Board, the faculty makes recommendations regarding policies and procedures they feel will enhance the operation of the institution. Individual employees of the College are encouraged to make recommendations to supervisory personnel, administrative officers, and/or Board members. Board meetings are open to the public and all interested individuals are encouraged to attend.
