- Jeremy and Kay requested that the Council suggest any questions that needed to be submitted to the SACS team Chairman. Send to Jeremy as soon as possible

Kay discussed the latest poster design that will advertise the Learning Lab

Last item, general discussion regarding how the first Learning Day went. There were very positive comments throughout the day from the participants.

- Kay reported on her address to the Student Senate, it went very well. It appears that teachers have been talking to their students, keeping communication open. Students are asking questions, being directed to the web to investigate.
- Some are already requesting to do Learning Day again in the spring; also, some suggested that we spend more time on some subjects covered today.
