

BEGINNING BRIDGE

BRDG1000

This bridge class is designed for people that have never played bridge or people that have not played in many years and wish to learn a new and challenging game. The class is composed of nine two hour sessions. Bridge is a card game played all over the world. Bridge has its own language so you can play with and against people that do not speak English or you do not speak their language. You will learn the Standard American bidding system that is played by the vast majority of American players. Bridge is played by four people composed of two two-person partnerships. After the lessons, you will be able to play duplicate (tournament bridge) or party bridge. The game can be as competitive or as relaxed as you wish it to be. Upon completion of this class, students may wish to join the American Contract Bridge League which offers bridge games for all levels of experience from beginner to expert. Athens is very fortunate to have two bridge clubs within twenty miles in which you can play duplicate 4 days a week. Come join the fun of the world of bridge!
