— **ESL** —
**English as a
Second Language**

Beginning, intermediate and advanced adult English language classes help students learn English along with U.S. culture and workplace skills. Students will learn and practice both conversational and written English. A required part of the class is a lab experience. The purpose of this lab is to give students a chance to learn and practice computer skills and apply language learned in the classroom to real-life, work-related projects. Students will also be able to use computer programs that will allow them to learn more English at their own pace.

Citizenship and English

English taught in the context of learning the information to prepare for the citizenship test. The class will include the history and government needed for the citizenship test, along with both oral and written English needed for the test and interview.
