ADN Course Evaluation Fall 2005

Q33 28. Please add any additional comments below:(if more space is needed, add any additional comments on the sheet in your syllabus)^a

	Fre que ncy	%	Valid %	Cumulative %
Valid	30	71.4	71.4	71.4
Most of the instructors were effective in teaching the content. Some of the instructors seemed to be either unprepared or 'burned out' with their teaching content which makes the day a very long one. I believe that if the teacher is truly...	1	2.4	2.4	73.8
I have enjoyed my experience at Trinity Valley Community College and have shared my experience with others. I have recommended going to this college for nursing to many and now people within our town that have never heard of Trinity Valley's Nursing...	1	2.4	2.4	76.2
All of the instructors were knowledgeable of the material they were presenting in lecture, but some made the atmosphere more conducive to learning. I really like Melinda, but she is hard to listen to in lecture. She reads directly from the power point...	1	2.4	2.4	78.6
Despite other's criticism of Lehne, I loved this textbook. Anyone who has picked up a pharmacology textbook would know that this is the most user-friendly, nursing student directed textbook available. Instructors were overall outstanding and...	1	2.4	2.4	81.0
I enjoyed this semester and I was happy with my experience at TVCC.	1	2.4	2.4	83.3
I FEEL THAT HESI SHOULD BE GIVEN AT A DIFFERENT TIME DURING THE SEMESTER. THE SEMESTER WAS FUN BUT VERY VERY HARD. THE LECTURES WERE FOR THE MOST PART VERY HELPFUL AND GAVE ALOT OF GOOD INFORMATION.	1	2.4	2.4	85.7
I really enjoyed the lectures this semester. I thought the material was explained well and that the instructors also modeled excellent, kind, compassionate attitudes. We are so fortunate to have such exceptional people on the teaching staff of TVCC!...	1	2.4	2.4	88.1
The instructors referred to the textbooks and I find that helpful in knowing what to read more of for study.	1	2.4	2.4	90.5
The Sophomore instructors are very good at what they do and they make sure to include in their lectures key points that need to be studied. I find them all to be fair and helpful to ADN students which facilitates learning.	1	2.4	2.4	92.9
There are many days during class that I feel that the instructors are condescending and rude. I don't think that because we are students that we should be spoken to in such a condescending and derogatory tone. I realize that some instructors claim to...	1	2.4	2.4	95.2
This is a personal opinion and may only reflect on me. I WISH all the instructors could lecture like Ray in the following ways: 1. Use voice inflexion 2. Go through Pathophys. (ex. DKA)	1	2.4	2.4	97.6
...				
This was a very tough semester. I feel that Ray can be harsh at times and tends to get upset very easily with the students. Sometimes with all the information given it is hard to remember everything. She makes it really hard for those who aren't as...	1	2.4	2.4	100.0

I enjoyed this Nursing course very much and I learned more than my test scores reflect! Nursing School is challenging but doable. The Instructors were awesome!	1	1.5
A lot of times the lecture and skills instructors and commonly, the textbooks all contradicted each other. Some told one way, some others another. The lectures were informative and most of them kept my interest. It was just confusing for testing...	1	1.5
GOOD JOB !! A+++	1	1.5
I believe that TVCC has the greatest instructors around! I have never seen so many instructors truly care for the students. Judy especially is a student advocate and I truly felt as though as long as she was there I was going to be o.k. However I...	1	1.5
I enjoyed the class and received valuable information.	1	1.5
I felt I used up a lot of valuable study time looking for information in the textbook, especially at first when I was unfamiliar with the textbooks and certain terms. If there is a objective you are trying to teach us by having us find the information...	1	1.5
I felt it made things harder when we had to read the same information out of many different books, because all the books didn't do things the same way.	1	1.5
I just wish that the videos and CD-ROM'S were easier to get to. With 130 students at one time, fighting over one of each of these is a little tough.	1	1.5
I really learned a lot from Amy's lecture's. I felt that Judy was unorganized and confusing at times. She has a lot of enthusiasm but while Amy's directions concerning projects was precise and understandable whenever Judy gave instruction I was more...	1	1.5
It became difficult to hear the instructor at times when people were talking continuously through lecture.	1	1.5
It would be nice if the instructor/s would explain things better and more slowly for those of us with no previous medical background. I know they know what they're talking about, but some of us have no idea. Also, the way the lab is set up makes it...	1	1.5
Judy is wonderful. She is a very motivated instructor and the students can tell that she really cares if the students understand the material. Amy and Lisa are great instructors. The subjects they taught were very understandable after their...	1	1.5
Most of the instructor's do a GREAT job in lecture but some rush through the material so fast that it sometimes just doesn't make any sense. And there are two instructor's that intimidate you so much that you're really scared to ask any questions! If we...	1	1.5
n/a	1	1.5
no comments.....	1	1.5
Some of the VCR tapes could be updated from the 1970's and 1980's to today's time frame.	1	1.5
The Pharmacology book didn't really get used in this semester and the Nursing trends book didn't get used but just a small section and with the high expense of these books it would have been nice to know at the beginning of the semester exactly what we...	1	1.5
This class is facilitated as well as any class with 120 student capacity could be. The instructors try to stay on track at all times. One suggestion is to post the test blueprints 2 wks pretest so that others that are organized and wish to can study...	1	1.5
