

## **AN INVITATION**

Welcome to the Adult Education Department of Trinity Valley Community College!

Our goal is to offer you quality instruction in language development, math, reading, and writing. Our staff of highly qualified educators desires to see you succeed in your educational endeavors. Whether you are looking to learn English, retool your skills for a new job, prepare to pass your GED or enter into a program to transition into higher education, the Adult Education Department is dedicated to providing services to persons residing in Henderson, Anderson, Van Zandt and Rains Counties.

As the director of the program, I encourage and challenge you to expand your educational horizons and join in the excitement of learning and building personal confidence for accomplishing great things in the future. Commitment and persistence are two qualities the successful student needs to possess in our program. If you are committed to expanding your knowledge and persist with attendance in the classes we offer, the program will enable you to succeed in your chosen path. I encourage every person who wants to further his/her education to enter our orientation process, thus taking advantage of the free opportunity offered by our grant-funded program. You will experience a non-threatening learning environment staffed with patient and well-educated instructors eager to see you learn and possess the skills to provide a secure future for you and your family.

If you have been considering entering the educational environment after years of being out of “the learner” role, place your fear aside and know that we can help you with your vision for a better tomorrow. Remember that I will be looking for you to join us soon in this remarkable journey we call Adult Education. It will change your life!

Chris Hicks, Director
