## TR PZC IMPRESSIVE FIRE 0792 ET

AICA# EM790986, DOB: March 14, 2010 BW: 88; AWW: 715; ADJYW: 1261;  
EPDs: BW: 1.6; WW: 23; YW: 53; Milk: 13; SC: 1.1; CW: 19; REA .49; Marb: .09

Flush mate to Turton. Sired by TR MR FIREWATER 5792R ET and out of THOMAS MS IMPRESSIVE 0641.

- ∇ The 0641 donor cow is a performance cow that has produced 2 national champion bulls and 3 national champion heifers and many other winners.
- ∇ Extremely thick and moderate frame polled bull.
- ∇ Consistent birth weights and moderate frame of offspring.
- ∇ Excellent semen quality and volume.
- ∇ Extremely gentle disposition is consistently being passed to offspring.
- ∇ Eye appeal is outstanding - is producing both registered show calves and club calves.
- ∇ Balanced EPDs

### Semen Available:

\$20/straw;  
\$35/signing fee.

will ship from  
Champion Genetics.

A letter received from  
satisfied club calf  
breeder/customer:

January 8, 2015

Marc,

As soon as I saw Impressive Fire I knew I wanted to breed cows to him. His base width and mass from behind is overwhelming. He is moderate in frame size, big bodied, big boned and amazingly sound to be as powerful as he is.

His calves have been better than I hoped for. We kept the heifers for replacements and sold a show steer from our first calf crop. The heifers are really stout made, but very feminine fronted. The steers are really complete and sound. They all have great dispositions.

His semen quality is excellent. We had eighty percent conception rates with him on our first calf crop.

Impressive Fire is a bull I can recommend with no reservations. He will work on club calf cows, commercial cows or registered charolais.

Sincerely,

Jimmy Downe  
Tennessee Colony, Texas
