

Phlebotomy Pre-Requisites

ADULT & CONTINUING
EDUCATION DEPARTMENT

Required Documentation:

- 1) **Must be 18 years of age or older.**
- 2) **Must submit a High School or GED Transcript.**
- 3) **Immunizations:** If immunizations have been administered, provide the most current immunization records available. If you are unable to provide records of administered immunizations, a *TITER (blood test)* is required to prove you have presence of antibodies. If antibodies are not found, immunizations are required to be administered.

Email immunization records to conted@tvcc.edu.

- a. Tetanus/Diphtheria (in the last 10 years)
- b. MMR (Measles, Mumps, & Rubella) – 2 doses
- c. Varicella (Chickenpox shot)– 2 doses
- d. Hepatitis B – All students must receive a complete series of hepatitis B vaccines or show serologic confirmation of immunity to hepatitis B virus prior to the start of direct patient care. The series must be three doses of Engerix-B or Recombivax-HB or two doses of Heplisav-B.
- e. Meningitis - All new TVCC students who are under 22 must have proof of meningitis vaccine on file at TVCC before being able to register. *Immunization records must be less than five years old.*
- f. Flu Shot – Current Season

If you are not in possession of your immunization records, contact the last known location of your records. Ex: high school college, doctor's office, parent, or guardian etc.

- 4) **DPS Background Check:** You will need to create an account at the [Criminal History Conviction Name Search](#), submit your information, and print or screen shot the Search Results as evidence of DPS background check.

Once required pre-requisite documentation has been received and cleared, potential student will complete the following: [TVCC ACE Registration Form](#) with the desired class information.

Tuition and required pre-requisite documentation are due at the time of registration.
