

# INTRODUCTION TO

With *Collage*  
*Chelsea Young*

Students will have an art journal where they can use found objects, and paper to create a collaged spread in their art journal. Students can learn about recycling found objects into a work of art. They can learn various techniques for collages. They can be creative in how they use different papers to make things for their collage. Students can "think outside the box" when it comes to needing supplies, and figure out how to use those supplies uniquely and creatively.
