Non-Attendance and Financial Aid: If you are receiving financial aid, federal regulations require you to have begun attending the courses for which you are enrolled on or before the census date (e.g., 12th day of each fall and spring semester and 6th day of class each abbreviated semester). Attendance in an online course is verified by substantial participation in the course on or before the census date. TVCC defines substantial participation in online courses as logging in to the online course **AND** completing/participating in at least one requirement of the course. **NOTE: Logging in to your online course does not warrant “attending”. For this course, you will be required to complete the start here module and nervous system assessment before the census (12th class day for fall/spring or 6th class day for abbreviated semesters) date in order to be marked as “attending” for purposes of financial aid.** Students documented as “not attending” a course upon the census date are assumed (for financial aid purposes) to have NOT begun attendance for that course, negatively affecting their financial aid disbursements.
