

Faculty Association Agenda

Meeting with Dr. King and Kristen Spizzirri

Wednesday, September 23, 2020

- I. Welcome
- II. Covid Concerns
 - a. My main concern is with the covid notification protocols. I've now had several students inform me that they were missing class due to exposure or being quarantined. We need to be notified of this by a coach or administrator first.
 - b. Many of us would like notification of COVID-19 cases on campus including for faculty, staff, and students. Weekly updates would be awesome, as well as knowing what buildings/rooms the infected have been in.
- III. Voter Registration-My only thought I would like to share is to see if our college could put together some program or procedure that would help our students register to vote. It could be as little as providing voter registration cards during post COVID-19 times or now informing students of websites where they could access online registration forms during our COVID-19 pandemic.
- IV. Pay Periods
- V. Mistake on Summer Pay
- VI. Contracts- The question is "what about contracts? It's the fifth week of the semester."
