Raymund A. Paredes, Ph.D.
Commissioner of Higher Education

Agency Mission

The mission of the Texas Higher Education Coordinating Board (THECB) is to provide leadership and coordination for Texas higher education and to promote access, affordability, quality, success, and cost efficiency through 60x30TX, resulting in a globally competitive workforce that positions Texas as an international leader.

Agency Vision

The THECB will be recognized as an international leader in developing and implementing innovative higher education policy to accomplish our mission.

Agency Philosophy

The THECB will promote access to and success in quality higher education across the state with the conviction that access and success without quality is mediocrity and that quality without access and success is unacceptable.

Agency Core Values

Accountability: We hold ourselves responsible for our actions and welcome every opportunity to educate stakeholders about our policies, decisions, and aspirations.

Efficiency: We accomplish our work using resources in the most effective manner.

Collaboration: We develop partnerships that result in student success and a highly qualified, globally competitive workforce.

Excellence: We strive for excellence in all our endeavors.

The Texas Higher Education Coordinating Board does not discriminate on the basis of race, color, national origin, gender, religion, age, or disability in employment or the provision of services.

Acknowledgments

This almanac would not have been possible without the support and expertise of many contributors. The Texas Higher Education Coordinating Board and the Texas Higher Education Foundation would like to thank all those who dedicated their time, effort, and resources to produce this year’s almanac. Investment in both the almanac and the 60x30TX.com website reflects a continued commitment to help ensure data-driven policy discussions and decisions in Texas. Thanks are due also to the institutions, which certified their accountability data in a timely fashion and reviewed almanac data file drafts, and to the strategic planning and funding staff, who compiled data and provided fact-checking services once the data were put into print format. And last but not least, appreciation goes to the many individuals who provided feedback on last year’s almanac with recommendations for improvements to this year’s edition.

Letter from the Commissioner

Having recently announced my pending resignation as Texas Commissioner of Higher Education, I concluded that this would be a good time to take stock of Texas public higher education after 15 years on the job.

Of course, any discussion of Texas public higher education must begin with a comment or two about Texas public K–12 education, given how dependent the former is on the latter. Simply put, a state system of higher education cannot flourish without a strong K–12 foundation. A glance through the early pages of this almanac reveals several areas of concern for Texas K–12. On SAT reading and writing, Texas ranks 42nd among the states; in math, we rank 41st. On the ACT, the second major national assessment of college readiness, Texas students do better, placing 27th among all states. Going by just these two assessments, somewhere between 25 percent and 40 percent of entering students are deemed not college ready. Texas allows multiple assessments for demonstrating college readiness, but even so, about 40 percent of entering college students are deemed not college ready by any state standard.

Texas also lags other states in sending students to college directly from high school—52 percent compared to the national average of 67 percent. Texas college-going rates are especially low for males, particularly African Americans and Latinos. In 2018, males made up only 43 percent of total public higher education enrollment in Texas, a disparity that is approaching crisis status.

Not surprisingly, the students who are least likely to complete high school and enroll in college are poor. As the almanac notes, examining educational attainment in 8th grade cohorts shows that only 73 percent of poor students (defined as those qualifying for free or reduced-price lunch) will graduate high school and only 44 percent will enroll in higher education in Texas (compared to 84 percent and 65 percent, respectively, for their more affluent peers). Considering that 59 percent of all Texas public school students are economically disadvantaged students, a failure to significantly improve their educational attainment will have dire consequences for the economic well-being and quality of life in Texas.

Clearly, a much higher level of cooperation between K–12 and higher education is needed in Texas. Faculty teams from both sectors should work more regularly together to align curricula for both academic and career and technical education programs. Colleges and universities should expand and maintain strong professional development programs for high school teachers to enrich subject matter mastery and maintain appropriate levels of academic rigor. The proliferation of dual credit courses in recent years creates both an opportunity and an imperative for an unprecedented level of collaboration between faculty from the two sectors.

As data in the almanac starkly demonstrate, poorly prepared students who enroll in Texas colleges and universities are generally placed in developmental education, from which they typically do not emerge successfully. Only 28 percent of students placed in developmental math complete a college-level credit course in two years; in reading and writing, the numbers are 41 percent and 35 percent, respectively. In Texas community colleges, fewer than 22 percent of underprepared students complete either a degree or a certificate in six years; in universities, only 30 percent of underprepared students complete a postsecondary credential in the same time frame.

These are tough numbers that Texas must overcome if it is to reach the goals of 60x30TX. But there is ample justification for optimism. As I write this, the Texas legislature is considering major reforms for K–12 education: salary increases for teachers, expanded pre-K opportunities, and increasing resources for schools in low-income communities. These actions would significantly improve college readiness and encourage more high school graduates to enroll in our public colleges and universities.

Recent changes in state policy are also yielding promising results. Current state law overhauling the practice of developmental education has led to significant improvement in student performance, and the state adoption of performance-based funding for two-year institutions is raising retention rates, completion rates, and employment outcomes.

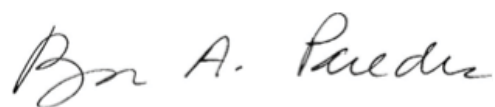

Our public institutions of higher education are showing signs that they are adjusting to the era of “post traditional” students, who are typically older, less affluent, and less familiar with the nuances of higher education than their predecessors. Colleges and universities are creating emergency aid programs for students who encounter unexpected expenses that might otherwise force them to drop out of college. Hunger is an increasingly important issue for today’s college students, and institutions are responding by creating and maintaining food pantries that students can use at no cost.

The rising cost of higher education continues to trouble political and education leaders. Texas is making progress on this issue as well. The state and individual institutions are supporting the use of open educational resources, instructional materials that are either free or far less expensive than conventional textbooks. Institutions are focusing on reducing time to degree and the number of courses students take in pursuit of associate and bachelor’s degrees. The issue of transferring course credits from one institution to another is receiving an unprecedented level of attention with the goal that all courses will transfer and count toward a degree. The Texas Affordable Baccalaureate (TAB) initiative, which adopts innovative educational practices and can deliver baccalaureate degrees for less than half the cost of conventional degrees, now includes 12 TAB programs currently being offered or in the development stage at eight institutions. The state continues to increase funding for the TEXAS Grant program, which places higher education within the reach of tens of thousands of students. While no one is pleased that the cost of higher education continues to rise, the facts are that our community colleges are the third most affordable in the country while our public universities are right at the national average. State institutions such as Texas A&M University and The University of Texas at Austin regularly appear on national lists of the best higher education bargains in the country. And Texas public universities have maintained affordability while improving their research and academic reputations. Texas now has eight public universities designated as Carnegie R1 Status research institutions: Texas A&M University, Texas Tech University, University of Houston, University of North Texas, The University of Texas at Austin, The University of Texas at Arlington, The University of Texas at Dallas, and The University of Texas at El Paso. Nationwide, only 86 public universities carry Carnegie R1 Status.

For all our challenges, Texas is on track to achieve the goals of 60x30TX, although, at this moment, there is little margin for error. Texas must produce more college-ready high school graduates who enroll in higher education. Students need to complete their degrees in a more timely and efficient manner. Our colleges and universities must improve developmental education, hold down costs, and increase completions. And while public universities have been steadily improving six-year graduation rates, they remain lackluster at 62 percent statewide.

The most precious resource of any state is its young population, and Texas is projected to lead the nation in the growth of its school-age population over the next decade. It is Texas’ most urgent priority to prepare our young people for leadership in a world where education—indeed lifelong education—will be all but indispensable for success.

One last note: It has been a privilege and a pleasure to serve as Commissioner of Higher Education in this great state.

Raymund A. Paredes, Ph.D.
Commissioner of Higher Education

April 2019

CELEBRATING
5 YEARS
&
**12 DEGREE

60x30TX

TEXAS AFFORDABLE BACCALAUREATE

The TAB program is a prime example of how leadership at Texas' public institutions are responding to the challenge of bringing higher education within reach of all Texans.

INDUSTRY ALIGNED

TAB degrees are designed to closely align with workforce needs. Well-established career and industry connections are an integral part of TAB programs.

FACULTY DRIVEN

Faculty collaborate to design new or redesign existing hybrid, online, and competency-based courses and create innovative learning pathways.

STUDENT CENTERED

Affordable and flexible, TAB offers a practical solution that helps students successfully achieve their education and career goals.

It has been my
miracle because it fits
into what my life is now:
a full-time employee, a wife,
a mother, and now a student.

*Maranda, Texas A&M University—
Commerce Student*

Sources of Data and General Terms

Sources of Data

National Context Data

ACT test scores are from ACT®, 2018 ACT National and State Scores, Average Scores by State, at <http://www.act.org/content/dam/act/unsecured/documents/cccr2018/National-CCCR-2018.pdf>.

Educational appropriations per FTE are from the State Higher Education Executive Officers State Higher Education Finance survey for FY 2017, at <http://www.sheeo.org/projects/shef-fy17>.

Educational attainment data for ages 25–34 are from the U.S. Census Bureau and were tabulated using the Public Use Microdata Sample files at www.census.gov/programs-surveys/acs/data/pums.html.

Faculty salaries are for 2015–16, are average salaries of full-time faculty members on 9- or 10-month contracts, and are from the U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System, in the 2017 Digest of Education Statistics, Table 316.40, at https://nces.ed.gov/programs/digest/d17/tables/dt17_316.40.asp?current=yes.

Federally financed academic research and development obligations data are from the National Science Foundation WebCASPAr database, Survey of Federal Science and Engineering Support to Universities, Colleges, and Nonprofit Institutions, FY 2016, at <https://ncesdata.nsf.gov/fedsupport/2016/>.

Graduation rates for FY 2016 are from *The Chronicle of Higher Education, Almanac Issue, 2018*, at <https://www.chronicle.com/interactives/almanac-2018> (which uses Integrated Postsecondary Education Data System data). Figures show the proportion of first-time, full-time, degree-seeking

undergraduates who entered degree-granting four-year institutions in fall 2010 and graduated within six years.

Median household income data are from the U.S. Census Bureau using the 2017 American Community Survey 1-Year Estimates, Median Income in the Past 12 Months, report S1903, at https://factfinder.census.gov/faces/tableservices/jsf/pages/productview.xhtml?pid=ACS_17_1YR_DP03&prodType=table.

SAT test scores for 2018 are from The College Board at <https://research.collegeboard.org/programs/sat/data/2018-sat-suite-annual-report>.

Tuition and fees data for 2016–17 are from the U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System, in the 2017 Digest of Education Statistics, Table 330.20, at https://nces.ed.gov/programs/digest/d17/tables/dt17_330.20.asp?current=yes. Figures show average undergraduate tuition and fees charged for full-time students in degree-granting institutions. Tuition and fees for public institutions represent charges to state residents.

Statewide Overview Data

Statewide and regional data for educational attainment for ages 25–34 are from the U.S. Census Bureau, 2017 American Community Survey 1-Year estimates from Public Use Microdata Sample files, at <https://www.census.gov/programs-surveys/acs/data/pums.html>.

Texas population data for 2018 are from the Texas State Data Center, TXSDC Projections of the Population of Texas and Counties in Texas by Age, Sex and Race/Ethnicity for 2010–2050, at <https://demographics.texas.gov/Data/TPEPP/Projections/>.

U.S. population data for 2018 are from the U.S. Census Bureau's annual population estimates program, at <https://www.census.gov/quickfacts/fact/table/US/PST045217?#>.

Unemployment insurance wage data are provided by the Texas Workforce Commission.

Baseline Data for 60x30TX

Baseline benchmarks use 2015 data when possible; otherwise, most recent data available are used: 60x30 Educated Population (2014), Completion (2015), High School Graduates Enrolling in Higher Education (2015), Working or Enrolled One Year After Graduation (2014), Student Loan Debt As a Percentage of First-Year Wage (2013), Percent Completing with Debt (2015), Time and Credits to Complete a Degree (2015).

Marketable skills data on process identification and implementation are based on institutional self-reporting.

Other THECB Data

Dual credit data are available at <http://www.txhighereddata.org/index.cfm?objectId=AEE9A640-D971-11E8-BB650050560100A9>.

Revenues per full-time student equivalents (FTSE) and uses per FTSE data come from THECB's Sources and Uses publication, at <http://www.thecb.state.tx.us/reports/PDF/12203.PDF?CFID=94237961&CFTOKEN=98264509>.

For a list of higher education institutions in Texas, see <http://www.txhighereddata.org/Interactive/Institutions.cfm>.

General Terms

Age: Age is calculated by subtracting the individual's date of birth from the *begin date* of the reporting period. For fall, the begin date is September 1; for spring, January 1; and for summer, June 1.

At risk: Includes students who received a Pell Grant, graduated with a GED, were 20 years or older when they first entered college, started as a part-time student taking fewer than 12 hours, or had an SAT/ACT score less than the national average.

Fiscal year (FY): The state's fiscal year is similar to the academic year of institutions. The fiscal year runs from September 1 through August 31; for example, FY 2018 is September 1, 2017, to August 31, 2018.

Hispanic Serving (HS): Colleges, universities, or systems/districts in which Hispanic fall headcount enrollment constitutes a minimum

of 25% of the total fall headcount enrollment. (Percentage is consistent with Hispanic Association of Colleges and Universities definition.)

Historically Black College or University (HBCU): Any historically black college or university established prior to 1964 whose principal mission was, and is, the education of black Americans.

Lower-division: Course offerings at a level of comprehension usually associated with freshman and sophomore college students.

Native student: A student who began and graduated at the same institution.

Percentile: The score below which a certain percentage of observations fall. For example, the 25th percentile score is the score below

which 25% of the scores may be found, and the 75th percentile score is the score below which 75% of the scores may be found.

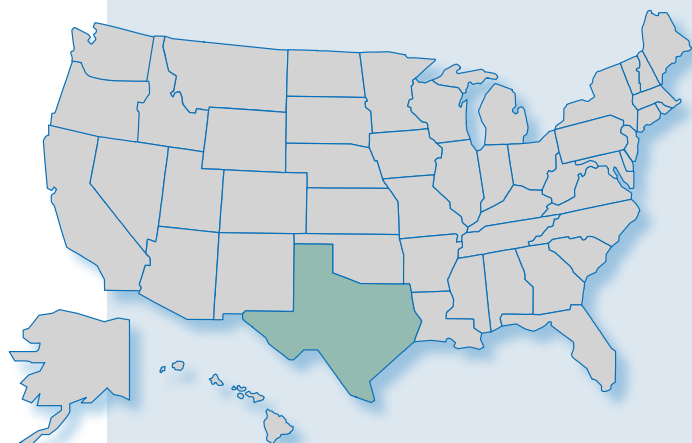

SAT/ACT test scores: Test score ranges are shown for Math and Evidence-Based Reading and Writing on the SAT test and for Math and English on the ACT test. Of enrolled full-time students, 50% have test scores within the ranges listed, 25% have scores above, and 25% have scores below. (*Source: USDOE IPEDS data for 2017–18, most recent data available*)

UG: Abbreviation for undergraduate.

Upper-division: Course offerings at a level of comprehension usually associated with junior and senior college students.

Additional data definitions, data years, and the THECB data sources are available on pages 88–89.

How Does Texas Compare to the Rest of the Country?

NATIONAL CONTEXT

Ranking by State

The bar charts on this page show how Texas compares to the rest of the country by data category. For each category, national comparison data show the highest-performing state, the lowest-performing state, and Texas, in context of the two states that performed just above, just below, or at the same level. See p. 4 for national data sources.

60x30TX

Texas Higher Education
Coordinating Board

60x30TX

Strategic Plan Update

60x30TX, the state's strategic plan for higher education, is focused on student success and establishing a globally competitive Texas workforce by 2030. Achieving the goals of 60x30TX rests heavily on collaboration among stakeholders in higher education, K-12 education, and the workforce. The plan addresses students' desires for a better life, employers' desires to remain competitive, and the state's need for a robust economy. Students of all backgrounds must complete certificates or degrees in larger numbers if the future workforce of Texas is to be globally competitive in 2030. Meeting that goal means increasing student success, addressing college affordability, and making explicit the workplace skills that students obtain in their programs.

60x30 is the overarching goal at the center of the plan, but the other three goals are what will get us to 60 percent in 2030. The completion goal counts the number of certificates and degrees conferred at Texas institutions. Data from the Bureau of Labor Statistics make clear that students do not get much of an economic lift from college attendance unless they complete a credential. Also, credential attainment ensures that students will gain full exposure to the skills available through academic programs, allowing them to effectively market these skills to secure employment that pays competitively. Affordable college programs and higher earnings position graduates to pay off their student debt. The debt goal aims to balance debt to help ensure that students have sufficient resources to complete their education but at levels that are feasible to pay back based on their career choice.

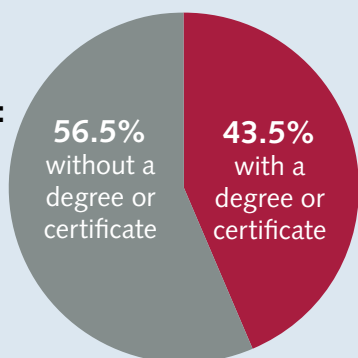

In 2018, the THECB continued to promote 60x30TX across the state. Each of the 10 higher education regions, in collaboration with K-12 and workforce stakeholders, developed strategies to help achieve their regional 60x30TX targets and identified institutional contributions toward regional targets. The THECB enhanced the 60x30TX.com website, the hub for the plan. This website provides resources about 60x30TX, including updated data that show progress toward plan targets and goals. The THECB continues to provide training to assist higher education institutions in implementing and achieving the 60x30TX marketable skills goal. In 2018, the agency revised marketable skills guidelines, developed a career readiness handbook, and hosted a second marketable skills conference.

60x30: Educated Population

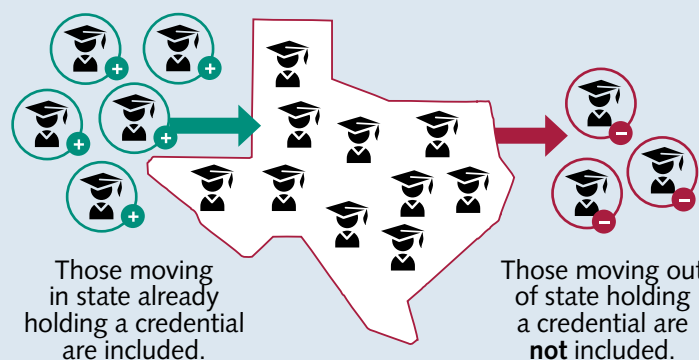

60x30TX is founded on the critical need for Texas to produce an educated workforce that is able to adapt and compete at the highest levels. The world's most competitive workforces have younger populations with more education compared to the United States and compared to Texas. Currently, only 43.5 percent of Texans ages 25-34 have a postsecondary degree or certificate. The best-educated societies in the world are at or near 60 percent in this age group. To compete and excel in this environment, 60x30TX sets an ambitious goal of 60 percent postsecondary attainment for young adult Texans.

Completion

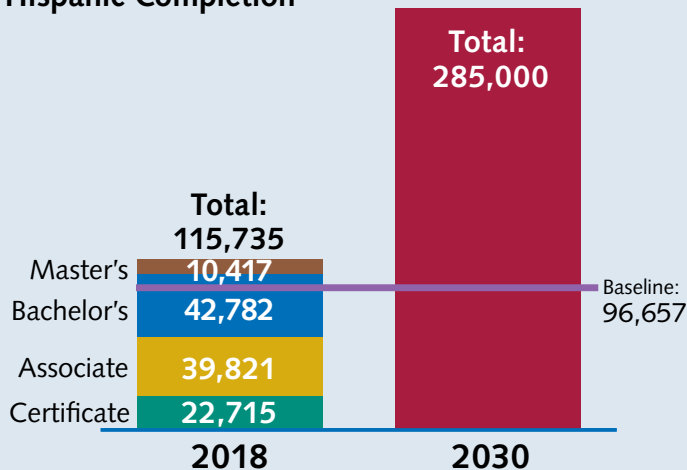

Data from the Bureau of Labor Statistics make clear that students do not get much of an economic lift from college attendance unless they complete a degree or an undergraduate certificate. Texas needs to continue its record of generating impressive growth in undergraduate degree and certificate production at all colleges and universities—private, public, and for-profit.

With 60x30TX, Texas aims to award a total of 6.4 million certificates or degrees by 2030. The plan also sets targets for Hispanic, African American, male, and economically disadvantaged completers and seeks to increase the percentage of students who enroll in higher education directly after high school from the current 52.3 percent to 65 percent.

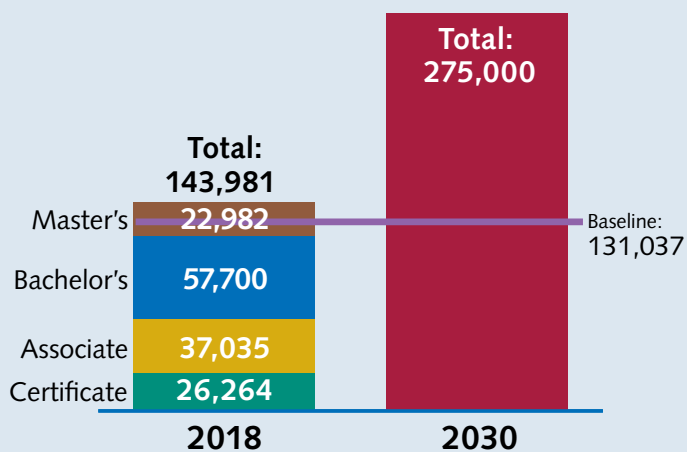

GOAL By 2030, at least 550,000 students in that year will complete a certificate, associate, bachelor's, or master's from an institution of higher education in Texas.

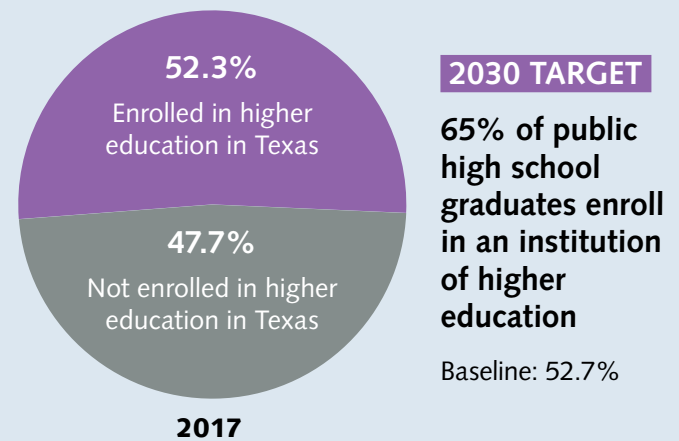

Hispanic Completion

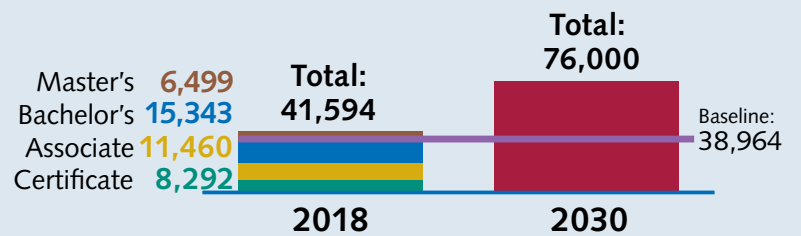

Male Completion

African American Completion

Economically Disadvantaged Completion (Undergraduates)

See Sources of Data (p. 4) for baseline benchmark years.

The ultimate goal of the 60x30TX plan is to have a diverse and educated workforce by 2030.

"Completing a college degree can be a gateway to a better life. One cost-effective option to increase socioeconomic mobility for a greater number of Texans is the Texas Affordable Baccalaureate program."
—Raymund A. Paredes, Ph.D., *Commissioner of Higher Education*

Marketable Skills

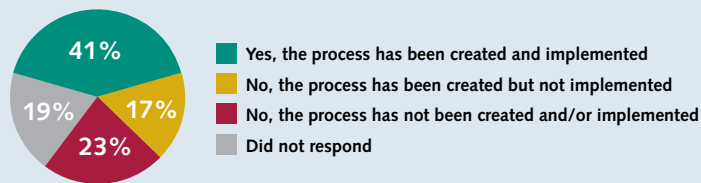

All programs develop skills of value in the marketplace. Students who can articulate their marketable skills are better positioned to get a suitable job. Every year, a national study by the University of California Los Angeles Higher Education Research Institute finds that more than 85 percent of surveyed students identified “getting a better job” as the most important reason for attending college. The 60x30TX plan requires institutions to formally identify those skills of value for each of their degree programs by 2020 so that students can market themselves to future employers.

Institutions are making significant progress toward the 2020 target. A marketable skills process has been developed and implemented by 41 percent of institutions; 17 percent have developed the process but not yet fully implemented it.

GOAL By 2030, all graduates from Texas public institutions of higher education will have completed programs with identified marketable skills.

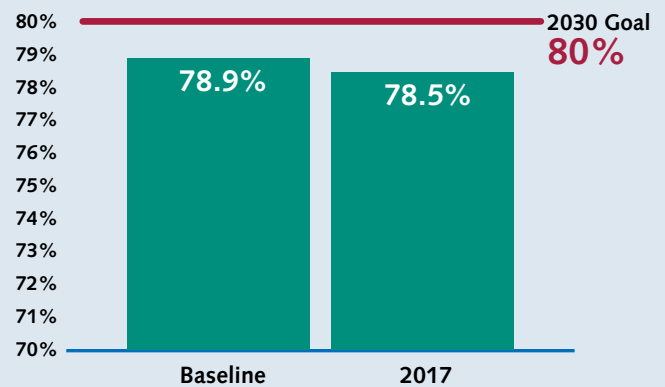

Percentage of Institutions, 2018

2015 → 2020 → 2025 → 2030

By 2020, institutions will have created and implemented a process to identify and regularly update marketable skills for each of their programs, in collaboration with business and other stakeholders.

Percentage of Students Working or Enrolled One Year After Graduation

See Sources of Data (p. 4) for baseline benchmark years.

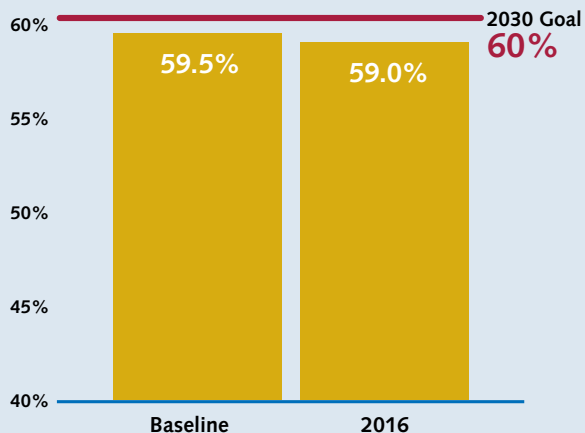

Student Debt

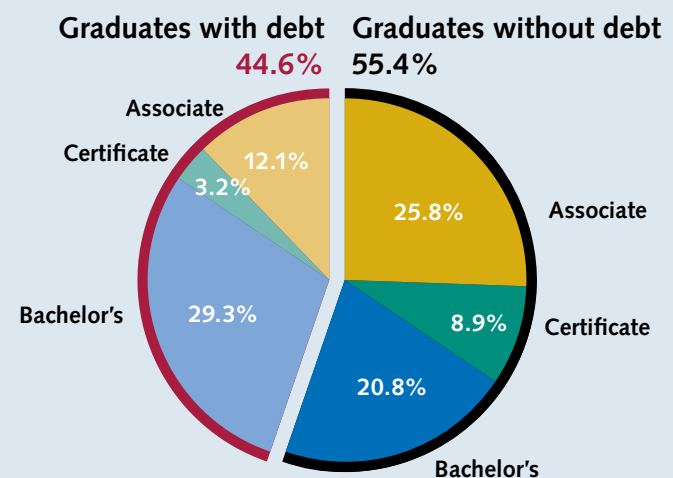

As a state, Texas has paid increasing attention to balancing student loan debt and improving how higher education is financed to reduce financial barriers that students and families encounter when pursuing any level of higher education. One way to focus on student loan debt is to set the statewide goal of maintaining debt load as measured against student earning power at graduation. 60x30TX sets the goal to keep this ratio at 60 percent for students with debt who graduate in the state. This goal has several facets: (1) the role of the state, (2) the role of institutions, and (3) the role of students. While there will be variation by sector and by student, all undergraduates with student loan debt who complete a credential from a Texas public two- and/or four-year institution are included in the 60 percent calculation. This goal also includes a target that no more than half of undergraduates complete their credentials with student loan debt. In 2018, 45 percent of undergraduate students completed their degrees and certificates with student loan debt.

GOAL By 2030, undergraduate student loan debt will not exceed 60 percent of first-year wage for graduates of Texas public institutions.*

Student Loan Debt As a Percentage of First-Year Wage by Degree, 2016

Share of Undergraduate Students Earning a Degree or Certificate with and without Student Debt

*60x30TX Student Debt goal of 60 percent of first-year wage represents a statewide goal and is not intended to be the goal for every student, institution, or sector. Debt as a percentage of first-year wage generally increases with number of credit hours required for credential. Debt to first-year wage is calculated as a median of all undergraduate students with debt and first-year wages. It is not an average.

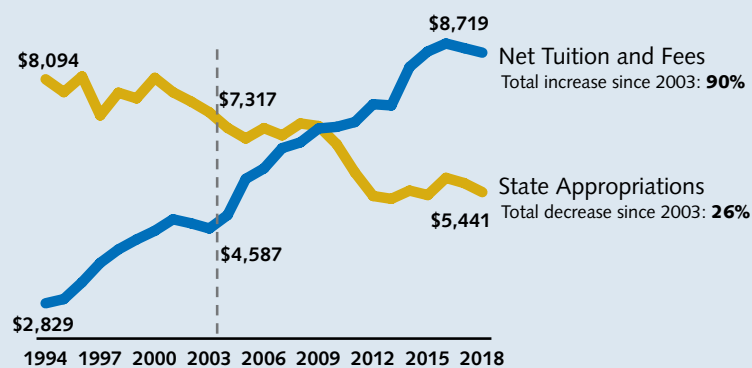

See Sources of Data (p. 4) for baseline benchmark years.

STATEWIDE OVERVIEW

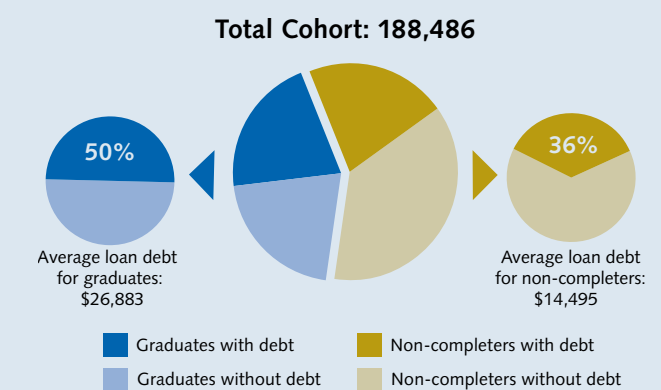

Student Debt Profile

The amount of debt a student incurs can have a lasting impact on a student's life after college. Concerns about college costs and loan debt also can affect the student's decision to attend and persist in higher education. This page features information relevant to undergraduate debt for students who attended Texas public higher education institutions. Trend lines highlight the changes in tuition and fees compared to state appropriations over time—two key factors in determining affordability. Students who borrow but who do not complete, as highlighted in the 2012 cohort profile, have the burden of debt without the increased earnings potential of a degree. Also, as shown at the middle of the page, the average debt (for students with debt) and percentage of students with debt at Texas public universities differs considerably across institutions.

STATEWIDE OVERVIEW

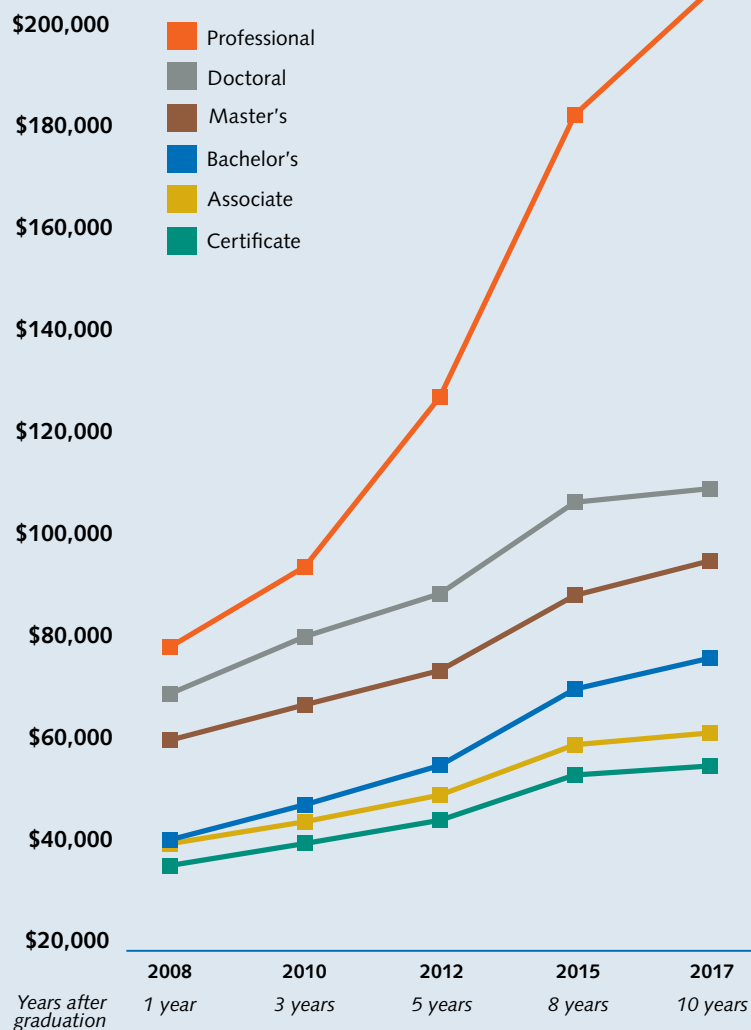

Earnings Profile

Workforce earnings data illustrate one of many benefits of earning a college credential or degree. This page highlights individual first-year earnings and individual earnings over a decade by both degree level and degree field. These data are from the Texas Unemployment Insurance Wage Record File and include only students who graduated from Texas institutions of higher education and were subsequently employed in Texas. The salaries are for the degrees awarded during the year shown, with no subsequent degrees earned (i.e., students who earn a higher degree are removed from the cohort). Graduates are not necessarily employed in their degree fields.

STATEWIDE OVERVIEW

Demographics, Enrollment, and Dual Credit

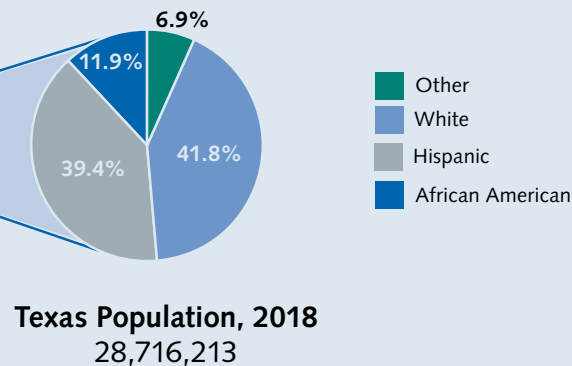

These data describe characteristics of the Texas population, including racial and ethnic distribution by age. Statewide higher education enrollment data shown by race, ethnicity, and gender illustrate how changing demographics are reflected in the state's public and private postsecondary institutions. Dual credit enrollment is shown to highlight the significant growth Texas has experienced in this area over the past decade. Most of this increase in enrollment has occurred in two-year institutions.

Statewide Enrollment at Two-Year and Four-Year Institutions

Total enrollment in public, independent, and career two-year and four-year institutions from 2002 to 2018

Dual Credit Enrollment by Type of Public Institution

STATEWIDE OVERVIEW

Graduation Success by Cohort

One of the most important measures of postsecondary success is degree completion. The tables below show enrollment and graduation success for first-time college students entering Texas public universities and two-year colleges in fall 2012. The tables indicate that part-time students complete at lower rates than full-time students. In addition to the traditional graduation outcomes shown below, the bar charts at the bottom show 6- and 10-year graduation rate comparisons at universities and completion, transfer, and persistence outcomes at two-year institutions. Statewide, timely completion is on the rise as are 6- and 10-year graduation rates.

Public Universities

STATEWIDE OVERVIEW

Completion of 8th Grade Cohort (2007–18)

The data on this page highlight differences in high school graduation, college enrollment, and college completion rates by gender and economic status for students enrolled in grade 8 in the 2007–08 academic year. By 2018, 23 percent received a higher education credential. One percent of these students received a certificate, 5 percent received an associate degree, and 17 percent received a bachelor's degree or higher. Male students and economically disadvantaged students graduated from public high school and completed college at lower rates than their respective counterparts. While we must continue to strengthen the pipeline from middle school to high school and to and through higher education, the students captured by the 8th grade cohort analysis represent about one-third of all the completers in 2018. Students (63 percent) follow many pathways through secondary and postsecondary education; for example, some attend private Texas high schools, some take time off before enrolling in college, some attend part time, and some complete outside of a six-year window.

Of the 265,618 students who completed undergraduate credentials in 2018, about one-third were in the 8th grade cohort.

STATEWIDE OVERVIEW

Transfer Success

Transfer rates are an important indicator of postsecondary success since more than 70 percent of all Texas bachelor's graduates take at least one college course at a public two-year college. Some students start in high school with dual credit classes, but many students start at a two-year college after high school and then transfer to a university. More than half of students who successfully transfer graduate within four years of transferring to a university. Unfortunately, too few students who intend to transfer successfully do so, and those that do tend to accumulate more excess semester credit hours than native students.

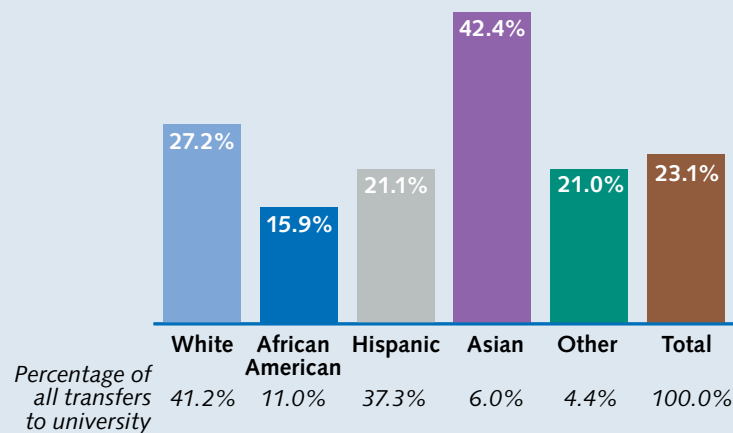

Transfer Graduation Rate

Fall 2013 transfer cohort followed for four years. Students could have attended a two-year college any time in the six years prior to transfer.

STATEWIDE OVERVIEW

Developmental Education Profile

Almost 40 percent of students entering a Texas public institution do not meet one or more state college readiness standards. The majority of these students start at public community and technical colleges. Among those who are underprepared in math, reading, and/or writing, only 44–64 percent meet readiness standards within two years, and about 28–41 percent go on to complete a college-level course. With respect to completion of a degree or certificate within six years, underprepared students lag behind those who enter college ready in all subject areas. Fortunately, with developmental education reform efforts firmly in place, the outcomes for underprepared students have been improving steadily over the past five years, and more progress is expected given the fall 2018 implementation of co-requisite models statewide.

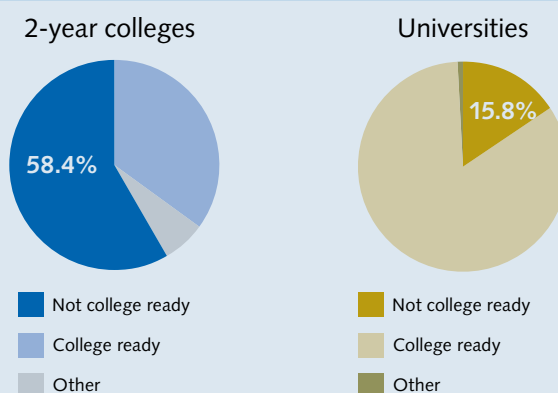

39.7% of first-time students entering higher education are NOT college ready.

Percentage of Students in All Grades Who Took ACT/SAT and Met National Readiness Benchmarks

College Readiness of First-Time Entering Students, by Higher Education Sector

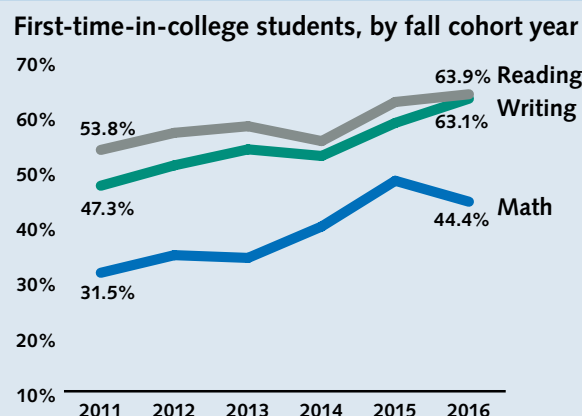

"Other" includes students without information regarding their academic readiness (Cert 1, military exemption, etc.).

Entering Students Who Met College Readiness Standards

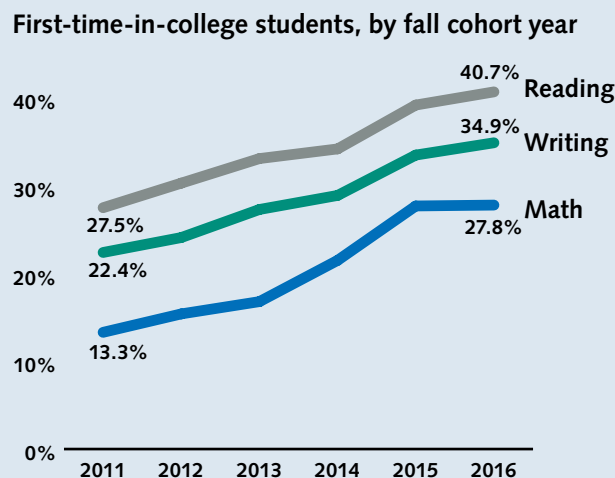

The decrease in college readiness from 2014 to 2015 may be related to a change in high school testing policy; specifically, the exit-level TAKS test, which could be used to show college readiness, is no longer available.

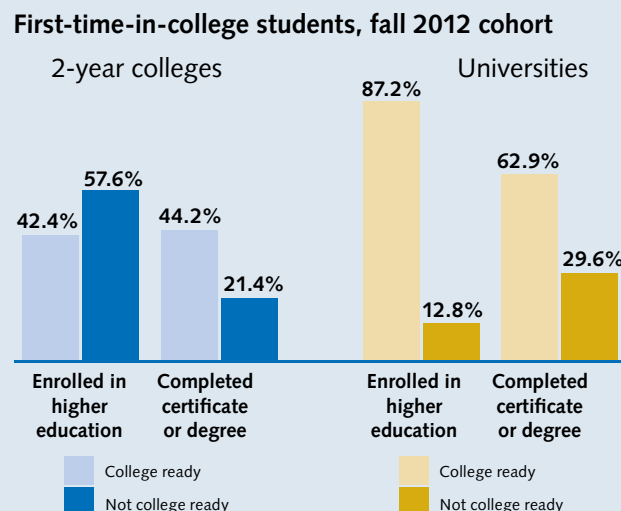

Students Who Were Not College Ready but Met Readiness Standards within Two Years, by Subject

Students Who Were Not College Ready but Completed First College-Level Course within Two Years, by Subject

Student Completion within Six Years of College Entry, by College Readiness

Cohort tracked 6 years for completion of degree.

Institutional Comparisons: Four-Year Public Institutions

INSTITUTIONAL PROFILES

Texas Four-Year Public Institutions

The following pages have individual profiles of the 37 public four-year institutions in Texas, including information on enrollment, demographics, graduation rates, student debt, post-graduation status, and faculty. This page includes the statewide data profile for four-year public institutions followed by a statewide financial profile. For explanation of specific terms or abbreviations, please refer to pp. 88–89.

Statewide Four-Year Public Institutions

Total Enrollment:
658,219

Average Tuition & Fees: **\$9,251**

TOP FIVE UG MAJORS (total FY 2018 degrees awarded)

1. Business, Management, Marketing, and Related Support Services (20,053)
2. Health Professions and Related Programs (11,428)
3. Multi/Interdisciplinary Studies (10,855)
4. Engineering (8,631)
5. Biological and Biomedical Sciences (6,682)

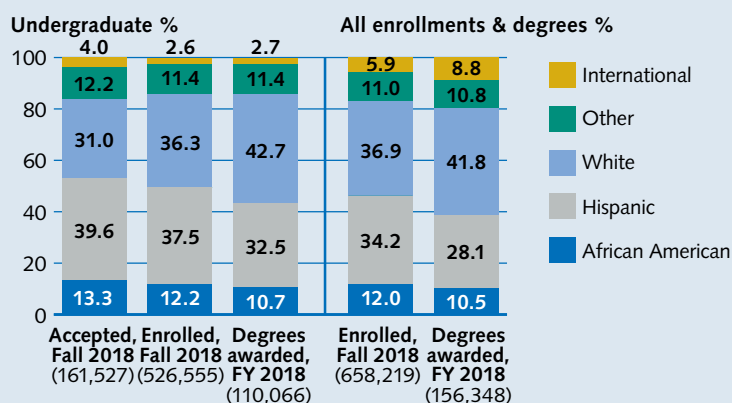

UG GRADUATION RATES

	Full-time	Part-time
4-year	38.6%	26.4%
6-year	61.6%	43.5%
10-year	68.1%	46.5%

DEBT OF GRADUATES

Average student debt	\$30,825
Native student debt	\$31,349
Parent debt portion	\$5,303
Transfer student debt	\$29,971
% students with debt	58.5%

PERCENT STUDENT POPULATION BY RACE/ETHNICITY

UG STUDENT CHARACTERISTICS

Applications	357,762
Applicants	202,963
% of applicants accepted	70.8%
FTIC in top 10%	26.4%
% enroll. change 2013–18	12.6%
% part-time	22.8%
% full-time	77.2%
% receiving Pell Grants	39.4%

DEGREES AWARDED

Total degrees awarded	156,348
Associate	36
Bachelor's	110,030
Master's	40,473
Doctoral – Research	3,877
Doctoral – Professional	1,932

COMPLETION MEASURES

Average time to bachelor's degree (yrs)	4.8
Average SCH to degree	136
% bachelor's degrees awarded to at-risk students	61.5%

GRADUATES' STATUS

% employed and/or enrolled	74.1%
Graduates as % of total FTSE enrollment	24.6%

TRANSFER STUDENTS

Graduation rate for 2-year transfers, FY 2018	57.8%
% of graduates completing 30 SCH or more at 2-yr colleges	33.8%

FACULTY

Total faculty	29,845
Tenured/tenure track	14,617
% tenured/tenure track	49.0%
Student-faculty ratio	22:1

AVERAGE REVENUE PER FTSE

State-funded FTSE	545,340
Total revenue	\$24,552
Tuition/fees	\$8,031
State revenue	\$7,994
Federal revenue	\$3,846
Institution revenue	\$4,681

AVERAGE USES OF FUNDS PER FTSE

Total	\$20,595
Instruction, research, and academic support	\$12,734
Student services and scholarships	\$3,173
Institutional support and OM of plant	\$3,561
Other	\$1,127

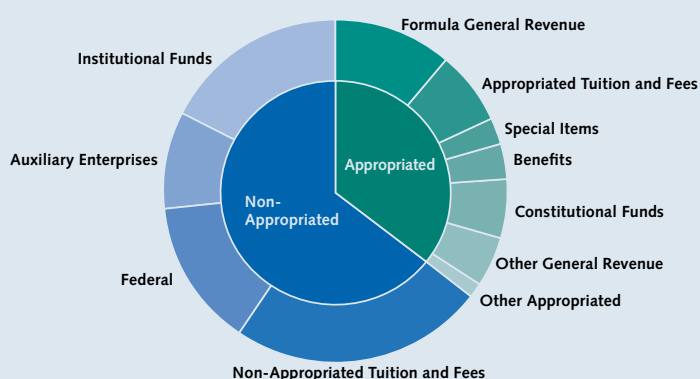

RESEARCH EXPENDITURES

Total research exp.	\$2,340,158,624
Fed. + priv. research exp. per T/TT FTE faculty	\$108,911

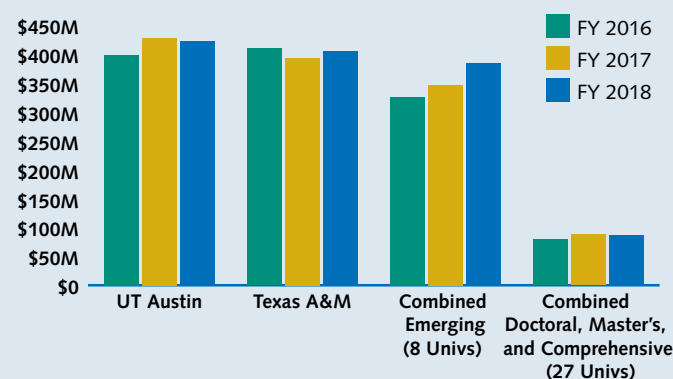

Financial Information for Four-Year Public Institutions

Operation Sources by Category, FY 2018

Definitions, Data Years, and THECB Data Sources

The following definitions, data years, and data sources will help you navigate the data provided in this year's almanac. They are particularly helpful in reading the institutional profiles. For a more comprehensive list of data source references, see p. 4.

Accountability (Peer) groups: Texas public universities are grouped based on key indicators such as mission, number of doctoral-research/scholarship programs, and research expenditures. Public two-year colleges are grouped based on size and/or type.

Average tuition and fees: The cost of tuition and mandatory fees charged to a student taking 30 semester credit hours (SCH) (15 SCH in the fall and 15 SCH in the spring). For four-year public institutions and the Lamar and Technical Colleges, tuition includes mandatory tuition (state-required tuition) and designated tuition (set by institutional governing boards). Submitted to the THECB on the College Student Budget Report. **FY 2019 rates**

Bachelor's graduates as a percentage of undergraduate FTSE enrollment: The number of students who received an undergraduate degree from an institution in a given year divided by the annual full-time student equivalent (FTSE) enrollment. The FTSE enrollment is the total of all semester credit hours divided by 30 (the number of SCH considered full time for undergraduates annually). Dual credit enrollments are not included in FTSE. **FY 2018**

Debt:

Average student debt: For FY 2018 graduates, average student loan debt includes all identifiable debt prior to graduation for those students with debt. University graduates include those who received a bachelor's degree. Two-year institution graduates include those who received an associate degree or certificate.

- Native student debt: Average debt for students who graduated from the institution where they were enrolled as a first time in college (FTIC) student.
- Portion as parent debt: Portion of native students' debt that was incurred by a parent through a federal PLUS loan (2006–12) or a federal Direct PLUS loan (2010–current). All native students with debt are included in parent debt calculation.
- Transfer student debt: All identifiable average debt for students who graduated from an institution but were not first time in college (FTIC) at that institution.

Debt profile for 2012 cohort: For completers and non-completers, the average student loan debt includes identifiable debt up to graduation or through FY 2018. Students who were still enrolled (had not graduated by FY 2018) were included as non-completers.

Identifiable debt: All undergraduate debt accumulated at Texas institutions as reported to the THECB, including federal and state loans, parent PLUS loans, and some private educational loans.

Percentage with debt: Percentage of an institution's graduates who incurred identifiable debt prior to graduation. **FY 2018**

Statewide student debt as a percentage of first-year wage: Median of individual student's identifiable debt to first-year wage percentage for students awarded a level I or II certificate, associate degree, or bachelor's degree from a Texas public institution. Individual must have student loan debt data at time of award and wages in first year following award. Bachelor's degrees awarded at community colleges are not included. Debt data for 2016 graduates. Wage data from 2017. (Source: *Financial Aid Database System unemployment insurance [UI] wage records*)

Degrees awarded/degrees and certificates awarded: For universities, the number of degrees awarded by race/ethnicity and level; certificates are not included. For two-year institutions, the number of degrees and certificates awarded by race/ethnicity. **FY 2018**

Developmental education:

College-level course completion: Percentage of total students below state readiness standards (called Texas Success Initiative [TSI]) in math, reading, and/or writing who successfully completed a college-level course in the related area (math, reading intensive, and/or writing intensive, as applicable) with a grade of A, B, or C within two years of college enrollment. **Fall 2015 cohort**

Total students below state standard: Students in college for the first time (both full and part time) who did not meet the state readiness standards in math, reading, and/or writing at the time of enrollment. **Fall 2015 cohort**

State readiness standard met: Percentage of total students below state readiness standards in math, reading, and/or writing who satisfied state standards within two years of college enrollment. **Fall 2015 cohort**

Dual credit:

Dual credit students: High school students who attempt one or more college courses for high school and college credit.

Dual credit as percentage of total enrollment: Dual credit enrollment as a percentage of the total enrollment. **Fall 2018**

Dual credit outcomes: College persistence and graduation rates for an institution's dual credit students who subsequently enrolled in the same or a different Texas college or university.

The percentage who earned a baccalaureate and/or associate degree is unduplicated. **Fall 2013 first time in college (FTIC) cohort**

Earnings of graduates: Annual wages of graduates during the first, third, fifth, eighth, and tenth year after graduation. Wage calculations include students who worked in Texas at least three-quarters of the year and did not earn a higher degree during the tracking period. No inflation factor was applied. For 2006 graduates, the wages are for 2008 (first year), 2010 (third year), 2012 (fifth year), 2013 (eighth year), and 2017 (tenth year). For 2016 graduates, the first-year wages were calculated for 2017.

Enrollment:

Fall headcount: The institutional fall headcount enrollment by race and ethnicity, including all full- and part-time students.

Fall 2018

Full-time student equivalent (FTSE) undergraduate enrollment: The sum of all fall undergraduate semester credit hours (SCH) attempted divided by 15. **Fall 2018**

Full-time student equivalent (FTSE) total enrollment: The sum of all fall semester credit hours (SCH) attempted divided by 15 for undergraduate SCH, 12 for master's and doctor's professional practice SCH, 9 for doctor's research/scholarship SCH, and 17 for optometry SCH. **Fall 2018**

Excess semester credit hours: Average number of semester hours (SCH) attempted by graduates of bachelor's degree programs from a Texas public institution in excess of the degree plan or graduates of associate degree programs in excess of 60 SCH. **FY 2018**

Faculty:

Total university faculty: All faculty members with teaching responsibilities, excluding teaching assistants. **Fall 2017**

University tenured/tenure track faculty: All faculty members with teaching responsibilities who have received, or are on a track to receive, tenure. **Fall 2017**

Two-year college faculty: Total number of faculty members and number and percentage of full-time (teaching 80% or more) faculty members. This includes faculty teaching flex courses. **Fall 2017**

First-time students accepted: Percentage of first-time summer/fall applicants accepted by the institution. **Fall 2018**

First-time undergraduates in Texas top 10%: The percentage of first-time undergraduates entering in the summer or fall class who ranked in the top 10% of their Texas public high school graduating class. **Fall 2018**

Except as noted in the almanac, the sources of data are the Texas Higher Education Coordinating Board institutionally certified CBM data; most measures are available in the Texas Higher Education Accountability System.

Graduates' status/success:

Four-year graduates' employment/enrollment status: The percentage of graduates employed in the fourth quarter of the calendar year after graduation and/or enrolled in a Texas institution in the following fall after graduation. **FY 2017**

Two-year college graduates' employment/enrollment status: The percentage of academic or technical graduates employed in the fourth quarter of the calendar year after graduation and/or enrolled in a Texas two- or four-year institution in the following fall after graduation, as specified. **FY 2017**

Graduation rates:

Public university 4-, 6-, and 10-year rates: The percentage of first-time entering, degree-seeking students who graduated with a bachelor's degree or higher from the same institution or another Texas public or independent institution after 4, 6, and 10 academic years for two groups: those students who enrolled in their first fall as full-time students (taking 12 or more semester credit hours [SCH]) and those who enrolled part-time (taking fewer than 12 SCH). **Rates through FY 2018** (for fall 2014, 2012, and 2008 cohorts, respectively)

Public two-year college 3-, 4-, and 6-year rates: The percentage of first-time, credential-seeking undergraduates who graduate within 3, 4, or 6 academic years for two groups: those students who enrolled in their first fall as full-time students (taking 12 or more semester credit hours [SCH]) and those who enrolled part-time (taking fewer than 12 SCH). Both degrees and certificates are included. **Rates through FY 2018** (for fall 2015, 2014, and 2012 cohorts, respectively)

Developmental education/non-developmental education rates: The percentage of first-time, full-time, credential-seeking undergraduates who graduated after six academic years by whether they met or did not meet state readiness standards in one or more areas under the Texas Success Initiative (TSI).

Percentage of graduates completing 30 SCH at a two-year college: The percentage of university graduates who took 30 or more semester credit hours (SCH) at two-year public institutions. **FY 2018**

Students receiving Pell:

Percentage of students receiving Pell Grants/received Pell in current year: The percentage of undergraduate students enrolled in the fall semester who received a Pell Grant for the current academic year. **Fall 2017**

Ever received Pell in higher education: The percentage of undergraduate students enrolled in the fall semester who received a Pell Grant at any time since 1997. **Fall 2017**

Ever received Pell and within two years of graduation: The percentage of undergraduate students enrolled in the fall semester with a classification of junior or senior at a four-year institution or sophomore or above at a two-year institution who received a Pell Grant at any time since 1997. **Fall 2017** (Source for Pell Grant data: Financial Aid Database System)

Race/ethnicity: In addition to African American, Hispanic, and White, the following race/ethnicity categories are included.

International student: A person who is not a citizen or permanent resident of the United States and who is in this country on a temporary basis and does not have the right to remain indefinitely. It may also refer to a non-resident alien.

Other: All other races not individually listed, including Native Hawaiian, other Pacific Islander, American Indian, Native Alaskan, Asian, multiracial not including African American, or unknown origin.

Research expenditures: Total expenditures from federal, state, private, and institutional sources combined, as reported in the annual research expenditures report. **FY 2018**

Research expenditures per T/TT faculty FTE: Total of federal and non-profit research expenditures per tenured/tenure-track (T/TT) full-time faculty member equivalent (includes only faculty members with teaching responsibility). **FY 2018** (research expenditures), **Fall 2017** (T/TT faculty FTE)

Restricted research expenditures: Expenditures contracted, gifted, or granted by an external entity (such as government agencies, philanthropic organizations, or individuals) where the primary use must be research or development. The Coordinating Board collects restricted research expenditures for formula distribution of Research Development Funds (RDF) and as a criterion for the National Research Universities Fund (NRUF). However, restricted research expenditures are more narrowly defined here than in the Annual Financial Reports (AFR) and thus not comparable. Estimates for restricted research expenditures for institutions not participating in RDF or NRUF are research expenditures minus state-appropriated funds, institutional funds, and indirect cost. **FY 2018**

Revenue per FTSE: Revenue, excluding auxiliary and public service funds, divided by the number of full-time student equivalents (FTSE) by categories, including total revenue, tuition and fees, state appropriation, federal funds, and institutional funds. Tuition and fees is the net of scholarship discounts and allowances. **FY 2018**

Student/faculty ratio: Full-time student equivalents (FTSE) divided by full-time equivalent (FTE) teaching faculty. For FTE teaching faculty, faculty reported on CBM008 must match CBM004 to be included in calculation. **Fall 2017**

Time and SCH to degree: The average length of time in years and number of attempted semester credit hours (SCH) to complete an associate degree (for two-year institutions) or a bachelor's degree (for four-year institutions) for students who graduated in FY 2018. Students are tracked 10 years back for accumulation of semester credit hours and total years and months that have elapsed from the first date of entry. Dual credit and developmental education hours are excluded. (Note: Dual credit hours were included in these measures prior to the 2014 almanac.)

Transfers to a senior institution:

Cohort: Number of students entering higher education for the first time at a two-year public institution who were not concurrently enrolled at a four-year institution. **Fall 2012 cohort**

Transfer rate: The percentage of students in the cohort who transferred to a senior institution within six years. **Fall 2012 cohort through FY 2018**

Two-year college students at universities:

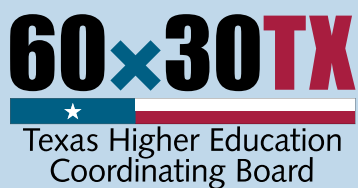

Baccalaureate graduates who completed SCHs at two-year public colleges: Percentage of baccalaureate graduates who completed 30 or more semester credit hours (SCH) at two-year public colleges. **FY 2018**

Graduation of two-year college students: Percentage of undergraduates who were first-time transfer students from Texas two-year public colleges with 30 or more semester credit hours (SCH) in the six years prior to transferring and who graduated from the same Texas public university within four years. Statewide Transfer Graduation Rate shown on p. 15 includes all transfer students from Texas two-year public colleges with one or more SCH. **FY 2018**

Uses of funds per state-funded FTSE:

Operating expenses divided by the number of full-time student equivalents (FTSE). Operating expenses are broken out by total; instruction, research, and academic support; student services and scholarships; institutional support and operations and maintenance (OM) of plant; and other expenses (e.g., capital outlays from current fund sources). **FY 2018**
