

## Faculty Association

October 25, 2024 Meeting

### Agenda

- Eight Week Load. Instructor would like to be able to teach three classes per eight week semester. Reason being is that it would provide more choices for new students who might be starting in the Spring.
- Consideration of having an enrollment of 5 as a made class for some of the advanced type classes. Examples Calc I and Calc II
- Administrators teaching classes. Is there a policy limit on the number of classes that an administrator can teach? If so, why is the policy not being followed?
- New tool for Faculty Evaluations. Erica Richardson to provide information.
- Drop date falling after Student Evaluations Open
- Telephone Service...most of the time it is not working, should you have an emergency and you do not have a cell phone...we are in trouble.
- Other Items
